One-half of the funds shall be distributed equally, and one-half shall be distributed on the basis of structural needs. Structural needs shall be determined by calculating the ratio of linear feet of bridges with a load rating of less than ten tons, in each county geographical area, located on public roads other than those on a federal-aid system or the state system of highways, to the total linear feet of like bridges in the State.

There shall be appropriated by the General Assembly to ECD such funds as may be allocated to Tennessee by the federal government for the CDBG Program. The state-administered CDBG Program shall be developed within the parameters of the CDBG legislation, applicable federal regulations, and consultation with citizens and elected officials in Tennessee.

Additionally, all CDBG projects must meet one of the three national objectives of (1) principally benefiting persons of low and moderate income, (2) elimination or prevention of slums and blight, or (3) elimination of conditions detrimental to health, safety or public welfare. Housing and Neighborhood Revitalization		2,140,500	2,140,500
Set-Aside	1,000,000	1,000,000	

A fifty percent (50%) reduction in any category will be permitted to facilitate proper program management and allow administrative flexibility. The funds so reduced shall be allocated to other categories with priority given to water/sewer/solid waste projects.

Selection criteria for project approvals shall be uniform within categories, objective and quantitative, and shall be based on project need, project feasibility, project impact, community need, and, for community livability projects, essentialness.

Project application materials will be supplemented, as appropriate, by site visits and by informed opinions of state agencies knowledgeable about particular projects.

The level of CDBG assistance for individual projects shall be determined by the following factors: (1) the percent of project beneficiaries that have family incomes below the low and moderate income (LMI) levels, (2) a maximum grant and/or loan of \$750,000.00 for individual projects (\$300,000.00 for community livability projects), (3) a maximum grant and/or loan to any applicant of \$750,000.00 in two successive years, and (4) the grantee's ability-to-pay. Higher grant levels (up to \$1,000,000.00) may be approved for regional projects.

If modifications in the expenditure plan for the CDBG Program are required, said modifications shall be accomplished in the following manner: (1) if the General Assembly is in session such modifications shall be approved by the General Assembly, or (2) if the General Assembly is not in session, the Governor may, (a) submit such modifications to the State Funding Board for approval or, (b) call a special session of the General Assembly for approval.

The Commissioner is authorized, subject to the concurrence of the State Funding Board, to determine that amount of new commitments unlikely to be accepted based on historical program trends and may over-commit to the extent of such determination. In no event may such over-commitments exceed thirty percent (30%) of the appropriations available for new grants. It is further the legislative intent that in the 1999-2000 fiscal year the TIIP program and the industrial training service program be managed so that actual expenditures and obligations to be recognized at June 30, 2000 shall not exceed any available reserves and appropriations of the programs.

No less frequently than quarterly, the Commissioner of Economic and Community Development shall report to the Commissioner of Finance and Administration the status of the TIIP and industrial training service appropriation, such report to include at least the following information: the amount of each commitment accepted since the previous report and the name of the company receiving the benefit of such commitment, the total outstanding commitments and the total unobligated appropriation. A copy of each such report shall be transmitted to the Speaker of the House and the Speaker of the Senate, the Chairmen of the Finance, Ways and Means Committees, the State Treasurer and the State Comptroller.

No single grant shall be made for more than seven hundred fifty thousand dollars (\$750,000) provided, however, that for extraordinary economic development projects of major employment and investment significance, additional funding may be provided with the approval of the state funding board.

These funds shall be used for industrial training and industrial infrastructure under the following provisions:

1. A grant or loan will be made only where there is a commitment by a responsible official in an eligible business for the creation or retention of private sector jobs and private investment, or where, in the opinion of the Commissioner of Economic and Community Development such investment will have a direct impact on employment and investment opportunities in the future.

2. Eligible businesses shall be limited to a) manufacturing and other types of economic activities which export more than half of their products or services outside of Tennessee, b) businesses where more than half of their products or services enters into the production of exported products, c) uses which primarily result in import substitution on the replacement of imported products or services with those produced in Tennessee, d) other types of economic activity determined by the Commissioner of ECD to have a beneficial impact on the economy of Tennessee.

3. Grants may be made to local governments or to their economic development organizations or other political subdivisions of the state for industrial infrastructure and for industrial site preparation. Infrastructure grants may include system improvements or line extensions. Infrastructure grants may not be applied to private land or to land which is expected to become privately owned. Site preparation grants are intended to make an otherwise unbuildable site buildable. Site preparation grants are not intended to ready a site for construction.

4. Grants may be made to eligible businesses for industrial training under the following conditions: a) to support the training of new employees for locating or expanding industries, b) to support the retraining of existing employees where retraining is required by the installation of new machinery or production processes.

5. In determining the level of grant assistance for infrastructure and site preparation consideration shall be given to local ability-to-pay with areas of lesser ability being eligible for higher grant rates.

The Commissioner of Finance and Administration is authorized to transfer a sum sufficient to the Division of Community Development and to the Industrial Training Service to provide for grants made under those programs.

SECTION 33. On or before January 31 of each calendar year, the Center for Business and Economic Research of the University of Tennessee shall cause to be published a comprehensive report on the state's economy. Said report shall be based on projections from the Tennessee Econometric Model and such other information as the Center may deem appropriate. The report shall contain projections for ten years (beginning with the calendar year preceding the year in which the report is due) of the annual economic activity (level and percent change over prior year) for each of the state's major economic sectors; shall include ten-year projections of selected economic indicators, as specified by the State Funding Board; and shall also include a narrative description of the short-term and long-term prospects for economic and business activity in the state based on these indicators.
